

Save The Bornish Eagles!

Join us for a
Community Awareness Celebration!

Saturday May 25th, 2013

Time: 1:00pm- 5:00pm

Place: West Williams Community Centre
32217 Kerwood Road, Parkhill

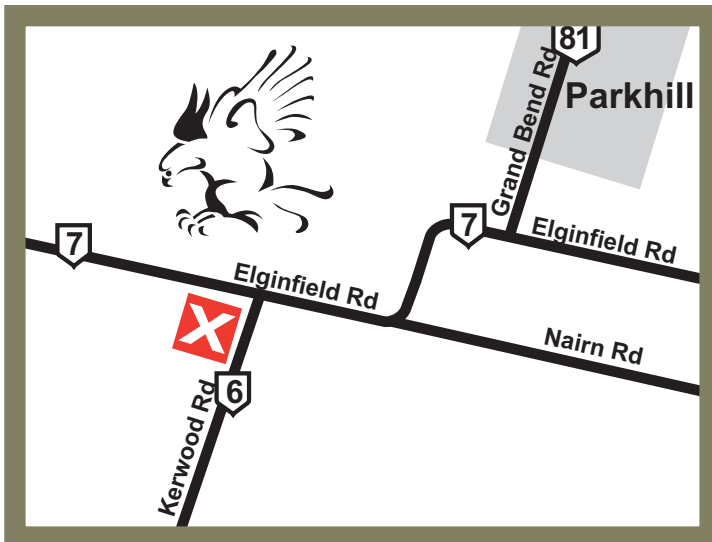

- * BBQ
- * Benefit
- * Speakers

The Ministry of Environment has approved the Bornish Wind Project for the Florida based Next Era's 45 wind turbines, each over 500 feet tall, substations and transmission lines just south of Parkhill.

Next Era proposes 2 wind turbines within 800 meters of the nest; in their feeding fly zone, and a massive sub station only 187 meters from their nest. Next Era plans to displace these eagles.

NextEra chopped down an active eagle nest in Haldimand Cty earlier this year, so that 3 wind turbines and an access road could be built.

Jan.05.2013: NextEra Energy cut down this eagle pair's nest, so they could install these 3 machines.

Apr. 2013

Fisherville, Haldimand County, ON

WE WILL NOT LET THIS HAPPEN AGAIN
